

## Assignment #1: Checklist

---

- ☐ Source formatting (nesting, lowercase tags, etc.) has been applied to both CSS and HTML
- ☐ Code has been validated both your HTML and CSS with W3C Validation Services
- ☐ All the required Metadata has been entered correctly
- ☐ A Table is in place and used appropriately
- ☐ Two (2) images have been used (1 background, 1 main)
- ☐ Images are sized and saved appropriately for the web
- ☐ A Google webfont has been used
- ☐ All CSS styles are in the .css file, not the .html
- ☐ Ensure you've written up your rationale.
- ☐ Ensure that all of your files are in your www folder. (Move the folder to a new location and test your webpage)
- ☐ Ensure you've added a link (either a mailto if you've written the recipe yourself or an external link with proper citation if you've used a recipe from another source)
- ☐ Read over the rubric one last time
- ☐ Create a folder – Name it "Recipe\_Webpage\_YourName". Place your www folder and your Rationale Word document in the folder. Copy the folder to your instructor's Handins folder.
- ☐ Print out a copy of the Rationale and hand-in to your instructor.
